Safety is paramount

Red Bus takes your safety seriously

That's why we are very proud to be taking industry-leading steps to ensure your health and safety when you travel with us.

- Red Bus holds a 5 Star rating under the New Zealand Transport Agency Operator Safety Rating system - the highest rating available in New Zealand - measured by consistent compliance with national safety standards.
- Red Bus has Tertiary ACC Accreditation - the highest ACC level. Independent auditing of our Health and Safety systems and processes by ACC. We are on the right track in achieving a safe workplace.
- Red Buses are monitored through sophisticated Telematics. Our drivers receive 'real time feedback' from a unit mounted on the dashboard, measuring acceleration, braking, cornering and speed.
- Our drivers all receive Safe and Fuel Efficient Driver (SAFED) training. They undergo this programme to make the public transport sector safer for you and other road users.

When you travel on a Red Bus you can be sure you are in safe and capable hands!
